

1. Draw the following Figure using the appropriate layers.
2. **Hatch** the zone as shown in the Figure. ✨
3. Find the **area** of the hatched zone. ✨
4. Copy the Figure and make it as a block.
5. Put all **dimensions** on the original drawing.
6. Insert the block with a **scale** (0.5) and a rotational **angle** (60°).
